[6~7] Read and answer each question.

The history of the Post-it® note began in 1968. 3M™ in the United States made a new glue. The glue stuck to things, but not too hard. People couldn't use the glue. Six years later, Arthur Fry at 3M™ wanted to make a bookmark. So he put the glue on small note pads. They stuck on paper, and people could use them again! The note pads were the first Post-it® notes!

6. What is the reading about?

- ① The history of the 3M™ glue
- ② The history of the United States
- ③ The history of the bookmark
- ④ **The history of the Post-it® note**
