[6~7] Read and choose the best answer.

The earth is always moving. So different countries do not have the same weather. Some countries have no winter or summer. In December, the bottom of the earth is close to the sun. So the weather is very hot in that area. The top is far from the sun. The weather is very cold in that area. The middle is always close to the sun.

6. Why do different countries have different weather?

① Because the earth is round.

② Because the earth goes round the sun.

③ Because the earth is far from the sun.

④ Because the earth is smaller than the sun.

7. Circle the correct one.

(1) In December, the top of the earth is (close to, far from) the sun.

(2) It is always (hot, cold) in the middle of the earth.

[8~10] Read and answer each question.
