Emoticons are very popular on the Internet. People use them with cell phones, too. Emoticons easily show emotions. In 1982, an American college student made the first emoticon. It was a happy face. It showed two eyes, a nose, and a smile. It quickly became popular. Soon, people made emoticons for other emotions.

6. What is the reading about?

① The most popular Emoticon

② How helpful emoticons are!

③ History of emoticon

④ Different kinds of emoticons

7. Choose the one which is NOT correct.

- ① People use emoticons with the Internet and cell phones.
- ② The first emoticon was a happy face.
- ③ We don't know who made the first emoticons.
- ④ Emoticons show people's feelings.

[8~10] Read and answer each question.

Countries do not use the same emoticons. There are some differences between America and Korea. In America, people show emotions with the mouth. A face with an open mouth shows surprise. Asian countries, like Korea and Japan, show emotions differently. In Korea, people show emotions with the eyes. A happy face does not show two eyes and a smile. It shows two happy eyes and a flat mouth. A surprised face shows one big eye, one little eye, and a small mouth.

Emoticons are very helpful. They tell us someone's feelings.
