Class:

Student Name:

[1~2] Choose the right words.

1. ① moon    ② alien    ③ star    ④ earth

2. ① telescope    ② rocket    ③ Mars    ④ planet

[3~5] Read and write T/F in the box.

I'm watching the moon with my telescope. Earth has a big moon. It's surprising. Earth and its big moon are very close. And far away, there are many stars, too. They are shining. Who lives on the stars? Let's take a rocket to the stars. We can meet aliens there! What a surprise!

3. Earth and the moon are far away.

F

4. Stars are shining.

T

5. Aliens live on earth.

F
