Talk about It

How are the houses at the North Pole different from your house?

Tina's Igloo

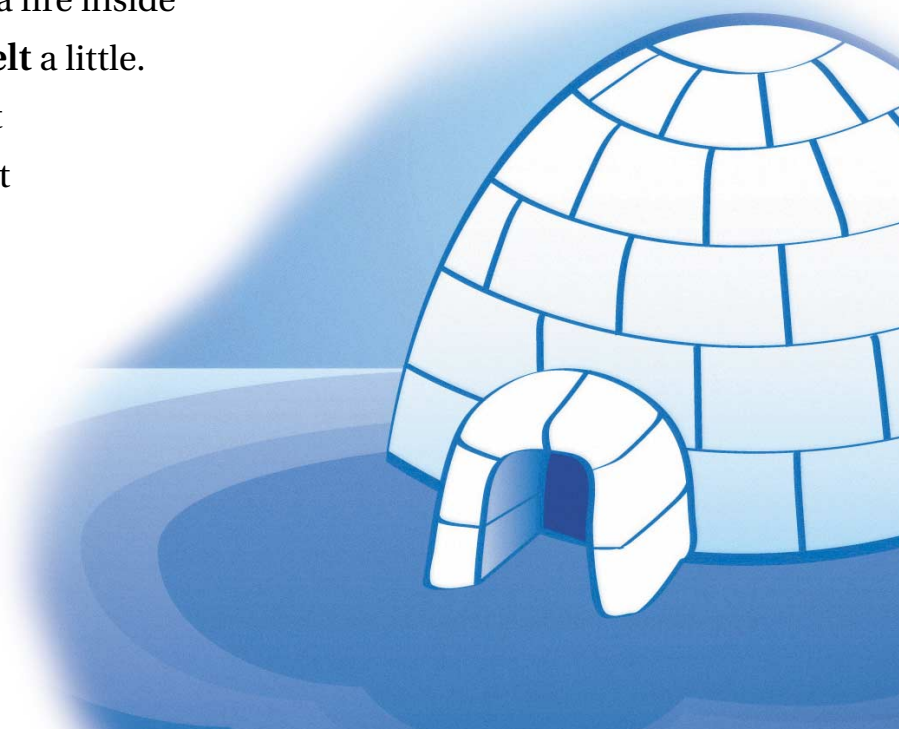

Hi! I am Tina. I live at the North Pole. People often call us “Eskimos.” But we do not call ourselves Eskimos. We call ourselves “Inuit.” Inuit means “people” in our language. Our land is very cold. So we build **igloos**, or round snow houses, to stay warm in the cold weather.

We build igloos with **blocks** of heavy snow. Igloos have a window, a door, and a hole to get fresh air. Igloos can be big or small. Sometimes we make a big igloo out of two or three little igloos. We make tunnels between the little igloos. Then we have a big igloo!

Can we feel warm inside igloos? Yes. Igloos are warm inside. Sometimes it is 20 degrees inside, even when it is minus 40 **degrees** outside!

This is because an igloo's snow walls do not lose heat. Snow has power to keep heat inside.

People have a little lamp or make a fire inside igloos. The snow of igloos may **melt** a little. But the snow **freezes** again, and it makes igloos strong. So, they don't melt away, and we can stay warm.

1 Tina's story is mainly about

- | | |
|--------------------------------------|------------------------|
| a. the weather at the North Pole. | b. the Inuit house. |
| c. melting igloos at the North Pole. | d. the Inuit language. |

2 Match (A) with (B) to complete the sentence.

- | (A) | | (B) |
|---------------------------|---|---|
| (1) An igloo | • | • keep heat inside. |
| (2) The word "Inuit" | • | • means "people" in Inuit words. |
| (3) An igloo's snow walls | • | • is the round snow house at the North Pole |

3 Read the sentence, and check T (true) or F (false) in the box.

- | | | |
|---|----------------------------|----------------------------|
| (1) Igloos get fresh air through a hole. | T <input type="checkbox"/> | F <input type="checkbox"/> |
| (2) Igloos need a fire to keep heat inside. | T <input type="checkbox"/> | F <input type="checkbox"/> |
| (3) We can't have a lamp inside igloos because igloos will melt away. | T <input type="checkbox"/> | F <input type="checkbox"/> |

4 How do Inuit make a big igloo?

They build †_____ between two or three little igloos.

5 This is the summary of Tina's story. Fill in the blank with the word(s) from the box.

North Pole	cold	snow blocks	warm	snow walls
------------	------	-------------	------	------------

Inuit live at the (1) _____. They build round houses with
(2) _____. They call the houses "igloos." Igloos do not lose heat
because of (3) _____. So, igloos are (4) _____
inside even when it is very (5) _____ outside.
